FAbstract Due to the accelerating speed of social development in our country, all walks of life have become increasingly prosperous. Pharmaceutical enterprises are an indispensable part of the market economy, and there are many deficiencies and problems in the process of their development. Among them, financial management problems directly affect the survival and development of pharmaceutical enterprises. If pharmaceutical companies want to operate better, they must effectively solve the problems existing in financial management. This paper analyzes this and proposes corresponding solutions, hoping to serve as a reference value.
